April 6, 1990 Issue 532

DXpedition News

Jarvis Island - KH5 The Jarvis Island **AH3C/KH5J** operation is on schedule, with the 71' yacht Makalani on the way now to Christmas island to pick up gear and crew. Monitor progress on 14185 kHz 04-0600Z with **AH3C/MM**. Pertti OH2RF will join the team. QSL to Jarmo Jaakola OH2BN, Kiilletie 5-C-30, 00170 Helsinki, Finland. Operation on Jarvis is set for April 13-23, weather permitting. On CW watch 23 kHz up, plus 18073 and 24895. On SSb try 1823, 3785, 7085, 14185, 18125, 21285, 24935, and 28485 kHz. 6-meter frequency is 50.110 MHz. For RTTY try 7040, 14075, 21075, and 28085 kHz. Sunrise 1640Z, sunset 0440Z.

Bangladesh - S2 Vince Thompson K5VT is on his way to Bangladesh, and expects to be on for 10 days beginning April 8, probably with a callsign ending in VT. Look for Vince on the usual DX frequencies. QSL information to follow.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

Spratly - 1S A team of Russian and Vietnamese amateurs has landing and operating permission for Spratly, valid until April 20. INDEXA has provided two stations. If they can raise enough money for transportation, look for an operation in the next couple of weeks.

Bhutan - A5 Jim Smith VK9NS continues his **A51JS** operation for another week. He's been worked on 14142 kHz 1100-1600Z and 21295 at 1700Z, and 14020 and 7005 kHz on CW. On 20M SSB, he listens 14200-210 kHz. His signal is very weak. QSL VK9NS.

Rhodes - SV5 Andreas Soechting DK6AS will be active as **SV5/DK5AS** April 13-18, all bands, CW only, 25 kHz up from the bottom of the bands. QSL to DJ8MT, or via Box 952, D-3180 Wolfsburg 1, FRG.

Shortly Noted

▪ **KH6JEB/KH7** Rick is very active on SSB until the 12th. Try 3794 kHz at 1030Z, 14195 at 1100Z, 28490 at 2100Z, 24950 at 0200Z, and 18130 at 2300Z, as well as the net on 7159 kHz at 0630Z. QSL home call.

▪ **EKØKBZ** and **EKØDR** are two Soviet special-events stations associated with a US/USSR sled dog expedition to Wrangel Island (AS-27). **EKØDQE** is with the expedition. QSL EKØDR and EKØDQE to RW3DR, and EKØKBZ to Sergey UAKBZ, P.O.Box 485, Cape Schmidt, Magadan Oblast 686830 USSR.

▪ **Abu Ail** A1 may be the next deleted DXCC country. Control of the islands passed to Yemen on April 1. Three German operators put the country on the air for probably the last time in late March. QSL **A15AA** on CW to DJ6SI, **A15AW** on SSB to DK9WU, and **A15AC** on RTTY to DJ6JC.

▪ **North American QSO Party** has been moved to avoid conflict with the International DX Convention in Visalia this weekend. The CW test will be April 14-15, and SSB April 21-22.

▪ **Vermont** on 30 meters is available Apr. 10-16 05-0700Z on 10105 kHz, with **KA1BSZ.**

▪ **9Q5WH** on 80 meters Feb. 7-8 was a pirate, according to supposed QSL manager K4BAI.

▪ **FOØSST** is the call of AA6LF on his first Pacific stop. QSL home call.

▪ **Leaving soon: 3DAØAH** Fred Maxwell returns to the states May 1. **CN8FC** wraps up his operation in June. **ZS8MI** leaves Marion in mid-April. Work these stations now!

▪ **T32T** made about 7,300 QSOs in the WPX, including hundreds with The DX Bulletin readers. Many thanks! QSL T32T to KH6VP. QSL **T32AW** to K1RH.

▪ **FOØVO** will be in the 7159 kHz net at 0700Z on April 7, looking for RI MS SD and SC.

▪ **6 Meters:** The first three 6-meter DXCC plaques have been issued to K5FF, W5FF, and VE1YX. Seven more plaques await the next DXers to earn DXCC on Six. W1AW reports that West Germany will get 6-meter privileges April 1, 50.080-50.4 MHz, with 25 watts ERP.

▪ **SSB Net** check-ins: 7159 kHz: SØ1EA KH7/KH6JEB; 14160: 9K2CS FH4EH EP2HZ; 14222: YJ8AB HC8JG TU2PA FR4FD 3D2ER KH6JEB/KH7; 14227 XX9KA P29BT 1Z9B VQ9HB 3W3RR 9M8FH 4K4QQ JT1BR V85NR VK9TR4 15256: 5R8JD FJ/NØIMH C53GB ZD8PJ 3B8CF FH8CB; 21335: C31SD ST4/WZ4C ZS9A 5U7NU FR5FD TL8WD.

▪ **Islands On The Air**: Carlo Amorati I4ALU will be active from Elba Island (EU-88) **/IA5** April 13-18. He'll be **ID9/** from Stromboli Island (EU-17) Aug. 13-30, CW only. The Sitkinak Island (NA-53) trip is set for April 6-9. Look for **KL7AF** on 3525, 7025, 14060, 21060, and 28060 kHz on CW, and the IOTA frequencies on SSB (14260, 21260, and 28460 kHz). Oscar Gerona EA8RA will operate from Gomera Island in the Canaries (AF-04) April 27-29, mainly RTTY. QSL to EA8AZM. **NL7BE** (NA-50) checks into the IOTA net on 14260 kHz at 1900Z weekends. **P29VMS** Bernhard continues to activate rare islands; try 28460 kHz at 0000Z.

Propagation Watch

The solar flux finally went back above 200, and even flirted with the 250 level for a few days. The higher flux, combined with the equinox in late March, have given DXers some very good band conditions.

Unfortunately, the increase in solar activity has also increased geomagnetic activity, which has cut into the long path and the polar path. The active geomagnetic field has not significantly affected the low-latitude paths, and the bands have been very good for stations near the equator (such as Christmas Island!)

10 meters has been very good during daylight hours, and can stay open well into the night, if anyone is looking. Try the band a hour or so after local sunset, after the D layer dissipates, and the daytime F layers combine. We are seeing some long-path openings on 10 again; try early in the morning, local time. 15 meters has been very good, often open far into the night. This is a good band for night owls to check; lots of long-haul DX is available after the crowd has gone to bed. The maximum useable frequency (MUF) has been too high during the day for much activity on 20 meters, but the band comes alive around local sunset, and provides good long-haul openings until a hour or so after local sunrise. When the geomagnetic field quiets down, look for openings on 40 and 80 meters to the west, beginning an hour or so before local sunrise.

Solar activity should bottom out again this weekend, with a gradual increase expected toward the end of April. Unless the solar flux soars into the high 200s, we may have to face the fact that Sunspot Cycle 22 has peaked, in mid-1989. It's still too early to write off Cycle 22, but solar activity in 1990 has not been encouraging. No problem for HF DXers, but 6-meter DXers will feel cheated.

For Sale

▪ The Hellgate High School Amateur Radio Club is trying to raise some money by selling some equipment no longer needed. For sale are a National HRO-500 general-coverage receiver with matching preselector and speaker ($495 + shipping), and a Drake TR-4 transceiver with matching power supply/speaker ($100 + shipping). Contact Jon Fimmel KA7YTZ at 406-728-2402 school days, or at home at 406-721-5551.

▪ Ray Husher W5EW will part with **either** his Kenwood TS-680 with 500-Hz filter ($800) **or** his Kenwood TS-440 with antenna tuner ($900). P.O.Box 73, Bernice LA 71222.

Wanted: Old DX Bulletins

Jim Maxwell W6CF is trying to complete his extensive collection of DX newsletters. If you have back copies of West Gulf, W4KVX, W4BPD, DXNS, DXpress, etc., contact Jim at P.O.Box 473, Redwood Estates CA 95044, to sell or trade.

Notes From All Over

▪ The new address of the International DX Association (INDEXA) is c/o W4UNP Secretary/Treasurer, P.O.Box 607, Rock Hill SC 29731.

▪ The 1990 South Sandwich/South Georgia DXpedition seeks funds to make the trip a reality. Send your contributions to Jerry Branson AA6BB, 93787 Dorsey Lane, Junction City OR 97448. If the DXpedition is cancelled, donations will be returned.

▪ The FCC has proposed moving the US Novice band on 80 meters to 3675-3725 kHz, from the present 3700-3750 kHz. This would lower the maximum permitted output power in the 3675-3700 kHz range to 200 watts PEP. Comments on 90-100 are due at the FCC by June 15. A copy of 90-100 is available from The DX Bulletin for an SASE.
